

EPICS UPRC

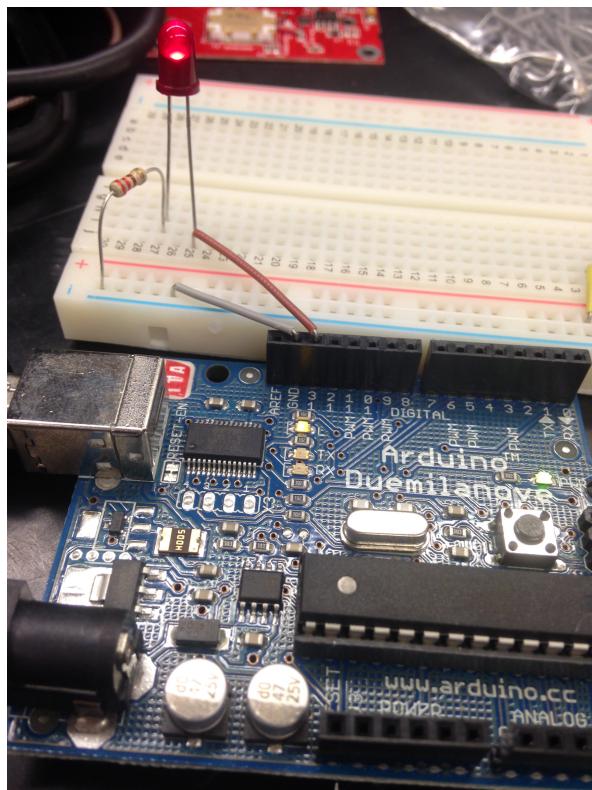

Week 3

RFID - Tech team

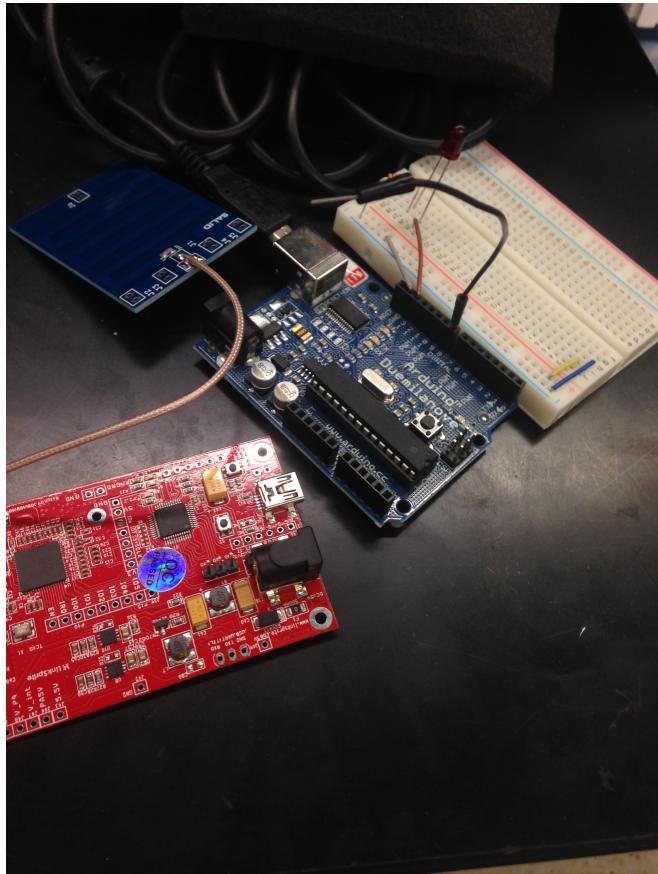

January 31, 2016

1 Progress

- Set up a Github repository to host the code
- Did a small experiment to make sure Arduino works

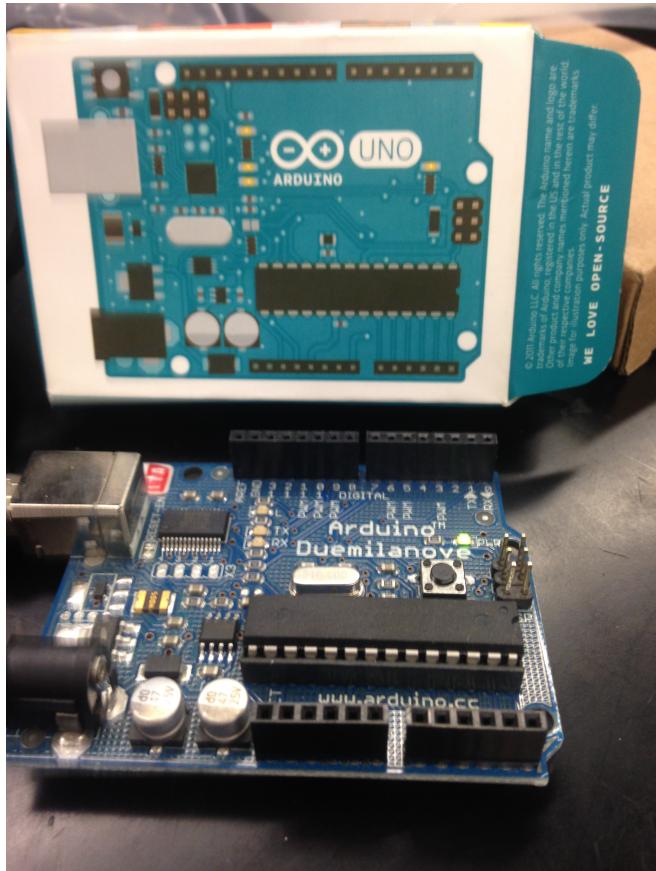

- Tried setting up Arduino, the reader and antenna.

2 Issues

- Can't find the jumper wire
- Andrew fooled me by using a wrong case on the Arduino

3 Goals

- Continue setting up the hardware
- Start coding the Arduino
